PROJECT IMPACT

ERASMUS + PROJECT

**ERASMUS + STRATEGICAL
 PARTNERSHIP PROJECT
 "CULTURES AND LANGUAGES:
 A BRIDGE AMONG SCHOOL
 COMMUNITIES"**

2014-2017

2014 - 2017

PROJECT OBJECTIVES

- to promote multiculturalism and multilingualism involving leadership skills of young people in order they become true leaders of their country and citizens of Europe;
- to foster equity and inclusion in education;
- to enable learning quality for all as well as to prevent drop-out;
- to promote participation of disadvantaged groups in society;
- to have individual pupil long-term mobility;
- to motivate students and teachers to learn foreign languages, travel and discover the other way of life;
- to create a solid cooperation and partnership among motivated and non-motivated students in participating countries;
- to enhance the quality and relevance of learning and teaching in each participating school.

PROJECT ACTIVITIES

- Twinning between motivated and non-motivated students.
- Short project meetings: participants students and teachers write summaries on project meetings indicating how this experience can change teaching and learning practices.
- Headmasters' meetings: headmasters write a report about observed school administration work, lessons, learning results, management activities at school, discussions, conferences, vizits in different educational insitutions, meetings with local authorities.
- Long-term individual student mobility: Students involved in long-term mobilities write a report.
- Host schools assess students and pass assessments to sending schools. (3 months in Italy, France or Lithuania).

PROJECT RESULTS:

- A project logo and project symbols have been created.
- A project website has been created:
<http://erasmus.ziburiogimnazija.lt/>
- 4 presentations on the topic of education systems in Lithuania, Italy, France, Turkey prepared and introduced in each participating school, local authorities.
- Forms of lesson observation for students and teachers have been created.
- A system of recognition and validation of pupils' achievements during their long-term study mobility have been created.
- Headmasters' reports about their insights, perspectives towards school development, teaching and learning processes improvement prepared and shared with local authorities.
- Presentations on different topics during the project implementation:
 1. How to make students be involved in learning foreign languages.
 2. Evaluation project results, its impact, evaluation of real changes in educational processes at schools caused by school leaders.
 3. Explanatory-creative-practical works for pupils in non-traditional learning environments (initiatives encouraging active involvement of pupils in lessons).
 4. Good practice examples of preventing from early school leaving.
 5. Sharing good experience: enabling learning quality for all as well as to prevent drop-out.
 6. Sharing good experience: promoting participation of disadvantaged groups in society.
 7. Long term mobility study of pupils: benefits and drawbacks.
