

TRAVELLING IS WONDERFUL!!

Travels change people, suddenly. Travels help to make decisions, to change way to see the world. 24th April 2016 my journey started. At 6:30 a.m. I was in airport to wait for my travel companions: the lovely teacher Loconte, the teacher Armenise and her funny son Donatello, the brave and cool Biagio, the shy Valentina, the safe Stefania, the stupid Giuseppe and the diffident Andrea.

I have discovered how to fly, to look at the Earth from above is exciting. I have admired and I have tried the beauty of France. I have lived in a loving and available family.

I would like to embrace Emma, her sweet mother and energetic granny. I would like to thank dean of the school, who has received us wonderfully. Thanks to French teachers (specially to the physical education teacher; the first day she make me run).

For a week I have found out interesting things, done new experience, seen immense places. I have known also Lithuanian girls: they were so sweet and I would like to thank, to greet and to embrace them.

I miss France and I would like to come back there!

The best experience of my life!

26th April 2016 mon voyage a commencé, et il n'a pas encore fini.

Merci beaucoup! Au revoir!

Angela Antonia Cea
